# **BITTERROOT RESOURCES LTD.**

## **MANAGEMENT DISCUSSION & ANALYSIS**

For the period ended January 31, 2015

As of March 27, 2015

### **INTRODUCTION**

Bitterroot Resources Ltd. is a mineral resource company engaged directly and indirectly through its wholly-owned subsidiaries, (collectively referred to herein as “the Company” or “Bitterroot”), in the acquisition and exploration of mineral properties. In Michigan, Bitterroot’s wholly-owned subsidiary Trans Superior Resources, Inc. owns recorded mineral title interests covering approximately 360 square miles and leases 880 acres of State of Michigan mineral rights and 40 acres of privately-owned mineral rights, all in the Upper Peninsula of Michigan. In southern British Columbia, the Company owns 100 percent interests in the GK (Au) and North Brenda (Au/Cu/Mo) claims.

Between November 1, 2014 and the date of this report, gold spot prices increased approximately 2%, copper spot prices declined approximately 9.3% and the TSX Venture Exchange index declined 14%. The Company is exposed to commodity price and equity market risk due to the cyclical nature of the mineral exploration business. Management seeks to minimize commodity risk by exploring for several metals (primarily nickel, copper and PGMs) and seeks to minimize exploration costs and political risk by operating in mining-friendly, road-accessible locations in North America.

The following Management Discussion and Analysis (MD&A) should be read in conjunction with Bitterroot Resources Ltd.’s condensed consolidated interim financial statements for the period ended January 31, 2015 and the related notes contained therein which have been prepared under International Financial Reporting Standards (“IFRS”). The following should also be read in conjunction with the audited annual consolidated financial statements for the year ended October 31, 2014 and the related notes contained therein which have been prepared under International Financial Reporting Standards (“IFRS”). This information and exploration results are presented in news releases and project summaries available on [www.sedar.com](http://www.sedar.com) or on the Company’s website ([www.bitterrootresources.com](http://www.bitterrootresources.com)).

All financial information in this MD&A related to 2015 and 2014 has been prepared in accordance with IFRS and all dollar amounts are quoted in Canadian dollars, the reporting and functional currency of the Company, unless specifically noted.

### **FORWARD LOOKING STATEMENTS**

Certain information in this MD&A, including all statements that are not historical facts, constitutes forward-looking information within the meaning of applicable Canadian securities laws. Such forward-looking information may include, but is not limited to, information which reflect management’s expectations regarding the Company’s future growth, results of operations (including, without limitation, future production and capital expenditures), performance (both operational and financial) and business prospects (including the timing and development of new deposits and the success of exploration activities) and opportunities. Often, this information includes words such as “plans”, “expects” or “does not expect”, “is expected”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates” or “does not anticipate” or

“believes” or variations of such words and phrases or statements that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved.

In making and providing the forward-looking information included in this MD&A the Company's assumptions may include among other things: (i) assumptions about the price of base metals; (ii) that there are no material delays in the optimisation of operations at the properties; (iii) assumptions about operating costs and expenditures; (iv) assumptions about future production and recovery; (v) that there is no unanticipated fluctuation in foreign exchange rates; and (vi) that there is no material deterioration in general economic conditions. Although management believes that the assumptions made and the expectations represented by such information are reasonable, there can be no assurance that the forward-looking information will prove to be accurate. By its nature, forward-looking information is based on assumptions and involves known and unknown risks, uncertainties and other factors that may cause the Company's actual results, performance or achievements, or results, to be materially different from future results, performance or achievements expressed or implied by such forward-looking information. Such risks, uncertainties and other factors include among other things the following: (i) decreases in the price of base metals; (ii) the risk that the Company will continue to have negative operating cash flow; (iii) the risk that additional financing will not be obtained as and when required; (iv) material increases in operating costs; (v) adverse fluctuations in foreign exchange rates; and (vi) environmental risks and changes in environmental legislation.

This MD&A (See “Risks and Uncertainties”) contains information on risks, uncertainties and other factors relating to the forward-looking information. Although the Company has attempted to identify factors that would cause actual actions, events or results to differ materially from those disclosed in the forward-looking information, there may be other factors that cause actual results, performances, achievements or events not to be anticipated, estimated or intended. Also, many of the factors are beyond the Company's control. Accordingly, readers should not place undue reliance on forward-looking information. The Company undertakes no obligation to reissue or update forward looking information as a result of new information or events after the date of this MD&A except as may be required by law. All forward-looking information disclosed in this document is qualified by this cautionary statement.

## **SUMMARY OF ACTIVITIES**

In the three months ended January 31, 2015, the majority of Bitterroot Resources Ltd.'s exploration expenditures were on geological consulting in Michigan. Exploration and evaluation expenditures in the period were \$58,580. Operating expenses were \$60,401.

## **OVERALL PERFORMANCE**

### **Results of Operations**

#### *Michigan Lands, Michigan*

Bitterroot Resources Ltd. owns a 100% interest in approximately 360 square miles of mineral rights in the Upper Peninsula of Michigan, U.S.A. On approximately 100 square miles (the "Copper Range Lands"), the vendor retains a 2% net smelter return royalty (NSR) and the Company has the option to purchase one half of this NSR royalty by paying \$1,000,000 U.S. on or before December 31, 2048. The Company's remaining wholly-owned mineral rights (the "Voyageur Lands") are not encumbered by royalties. The Company also currently holds leases covering 880 acres of State of Michigan mineral rights. State leases are subject to a sliding scale production royalty ranging from 2% to 7%, or to a net smelter returns royalty, the terms of which are negotiated on a case-by-case basis.

In September 2014, the Company's Michigan subsidiary entered into an agreement whereby it purchased Prime Meridian Resources Corp.'s entire interest in a 40-acre minerals lease in Baraga County, Michigan, known as the "Loosemore" property. Bitterroot issued to Prime Meridian 500,000 units, with each unit consisting of one Bitterroot common share and one common share purchase warrant, exercisable for two years at C\$0.10, plus made a one-time C\$7,500 cash payment to Prime Meridian. The lease requires annual advance royalty payments of US\$100 per acre and the lessor retains a 3% NSR royalty. The Loosemore property is prospective for Ni-Cu-PGM mineralization similar to Lundin Mining Corporation's Eagle Mine, located approximately 24 km ESE, in a similar geological setting. The Baraga Basin hosts several other nickel and copper sulphide-bearing ultramafic intrusions, including Lundin Mining's Eagle East and Rio Tinto's Bovine Igneous Complex. Ni-Cu-PGM-mineralized boulders have been discovered in gravel pits less than 2 km east and south ("down-ice") of the Loosemore property.

In 2014 Bitterroot drill-tested geophysical targets on its wholly-owned mineral rights in the Haystack South area. These targets are also prospective for Eagle-type nickel-copper-PGM-bearing sulphide deposits. In the period 2010-2013, Rio Tinto was actively exploring in the area, in very close proximity to Bitterroot's land holdings. Between October 2012 and August 2014, Bitterroot's geophysical contractors conducted Pulse EM (PEM) and gravity surveys on twelve targets. The PEM and gravity surveys identified several magmatic nickel-copper-PGM drill targets on Bitterroot's 100 percent-owned mineral rights. The Company is currently in discussions with potential funding parties.

During the period ended January 31, 2015, the Company spent \$58,300 (2014 - \$141,492) on its Michigan exploration projects, mainly on geological consulting. Mr. Glenn Scott, P.Geo is the Qualified Person responsible for the technical content of this disclosure.

#### ***North Brenda Project, British Columbia***

No field work was done on the North Brenda property in the period. During the year ended October 31, 2014, the Company wrote-down its remaining \$976,654 of costs related to the North Brenda property. Mr. Charles Greig, P.Geo is the Qualified Person responsible for the technical content of this disclosure.

### ***Other***

The Company owns a 100% interest in the GK (Au) claims in southern BC. No work was done on this property in 2014 and the period ended January 31, 2015. In June 2014, the Company forfeited the SPN property, which consisted of 13 claims covering 6,490 hectares.

## **SUMMARY OF FINANCIAL RESULTS**

### ***Revenues***

Due to the Company's status as an exploration and development stage mineral resource company and a lack of commercial production from its properties, the Company currently does not have any revenues from its operations.

### ***Expenses***

During the period ended January 31, 2015, the Company recorded a loss of \$60,401 (\$0.00 per share) compared to a loss of \$66,559 (\$0.00 per share) for the period ended January 31, 2014.

Expenses were \$60,401 for the period ended January 31, 2015 compared to \$66,559 for the period ended January 31, 2014.

Expenses details are as follows:

- a) Interest expense of \$3,658 (2014 - \$Nil) – the increase is due to interest accrued on the loan from a family member of a director.
- b) Foreign exchange loss of \$16,223 (2014 -\$4,090) – the change in foreign exchange was due to fluctuations in the USD exchange rates during the period.
- c) Office and printing fees of \$10,878 (2014 - \$25,399) – the decrease is mainly due to reduced office and administrative activities.

The remaining expenses were relatively comparable to the same period of the prior year.

## SUMMARY OF QUARTERLY RESULTS

During the quarter ended July 31, 2014, the Company recorded share-based payments of \$47,479.

During the quarter ended October 31, 2013, the Company recorded share-based payments of \$76,077 and wrote-down \$2,744,245 of capitalized expenditures on its North Brenda, Windy and Michigan properties.

## FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

As at January 31, 2015, the Company had cash of \$7,410, \$75,255 was owed to related parties, accounts payable and accrued liabilities were \$273,284 and the working capital deficiency was \$412,628.

During the period ended January 31, 2015, the Company received loan proceeds of \$9,000 (October 31, 2014 - \$67,500) from a family member of a director. As at January 31, 2015, the Company recorded \$3,658 of accrued interest (October 31, 2014 - Nil).

Subsequent to January 31, 2015, the Company finalized the loan agreement related to the proceeds advanced of \$76,500 as well as an additional \$37,000. The loan bears interest at a rate of 12% per annum and is payable on demand. Subject to registration, the loan is secured by a general security agreement over all of the present and subsequently acquired assets of the Company. The terms of the loan are applied retrospectively to the total outstanding balance of \$113,500.

## **RELATED PARTY TRANSACTIONS**

Key management personnel are the persons responsible for the planning, directing and controlling the activities of the Company and include both executive and non-executive directors, and entities controlled by such persons. The Company considers all Directors and Officers of the Company to be key management personnel.

The following is a summary of related party transactions and balances during the period ended January 31, 2015, not disclosed elsewhere in the financial statements:

- (a) Management fees of \$30,000 (2014 - \$30,000) were incurred from a company controlled by the CEO of the Company.

As at January 31, 2015, the Company owed \$75,255 (October 31, 2014 - \$43,534) to a company controlled by a director in common. During the period ended January 31, 2015, the Company received loan proceeds from a family member of a director in the aggregate amount of \$9,000 (October 31, 2014 - \$67,500).

## **RISKS AND UNCERTAINTIES**

Natural resources exploration, development, production and processing involve a number of business risks, some of which are beyond the Company's control. These can be categorized as operational, financial and regulatory risks.

- Operational risks include finding and developing reserves economically, marketing production and services, product deliverability uncertainties, changing government law and regulation, hiring and retaining skilled employees and contractors and conducting operations in a cost effective and safe manner. The Company continuously monitors and responds to changes in these factors and adheres to all regulations governing its operations. Insurance may be maintained at levels consistent with prudent industry practices to minimize risks, but the Company is not fully insured against all risks, nor are all such risks insurable.
- Financial risks include commodity prices, interest rates and the Canadian dollar and the United States dollar, which are beyond the Company's control.
- Regulatory risks include the possible delay in getting regulatory approval to the transactions that the Board of Directors believe to be in the best interest of the Company, increased fees for filing, the introduction ever more complex reporting requirements the cost of which the Company must meet in order to maintain its exchange listing and the resulting potential for accounting errors which may lead to fines, interest charges and cash calls.

Bitterroot's ability to meet its ongoing financial obligations will be determined by management's success in acquiring exploration and evaluation assets, obtaining equity financing, negotiating joint venture arrangements and facilitating the exercise of outstanding share purchase warrants and options. There can be no assurance that the Company will be able to continue to raise funds, in which case it may be unable to meet its obligations. Should Bitterroot be unable to realize its assets and discharge its liabilities in the normal course of business, the realizable

value of its assets may be materially less than the amounts recorded on the statements of financial position. Details of funding commitments on the Company's exploration and evaluation assets are disclosed in Note 4 of the unaudited condensed consolidated interim financial statements for the period ended January 31, 2015.

## DISCLOSURE FOR VENTURE ISSUERS WITHOUT SIGNIFICANT REVENUE

An analysis of the material components of the Company's general and administrative expenses is disclosed in the unaudited condensed consolidated interim financial statements for the period ended January 31, 2015 to which this MD&A relates. An analysis of the material components of the exploration and evaluation assets of the Company is disclosed in Note 4 of the unaudited condensed consolidated interim financial statements for the period ended January 31, 2015 to which this MD&A relates.

## OFF-BALANCE SHEET ARRANGEMENTS

The Company does not have any off-balance sheet arrangements.

## **PROPOSED TRANSACTIONS**

The Company continues to evaluate property acquisitions and dispositions, actively target sources of additional financing through alliances with financial, exploration and mining entities and to explore and develop its exploration and evaluation assets. Should it enter into agreements over new properties, it may be required to make cash payments and complete work expenditure commitments.

## **CRITICAL ACCOUNTING ESTIMATES**

The preparation of financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual reports could differ from management's estimates.

## **CONTINGENCIES**

There are no contingent liabilities.

## **INTERNAL CONTROLS OVER FINANCIAL REPORTING**

### **Changes in Internal Control over Financial Reporting ("ICFR")**

In connection with National Instrument 52-109, Certification of Disclosure in Issuer's Annual and Interim Filings ("NI 52-109") adopted in December 2008 by each of the securities commissions across Canada, the Chief Executive Officer and Chief Financial Officer of the Company will file a Venture Issuer Basic Certificate with respect to financial information contained in the unaudited condensed consolidated interim financial statements and the audited consolidated financial statements and respective accompanying Management's Discussion & Analysis. The Venture Issue Basic Certification does not include representations relating to the establishment and maintenance of disclosure controls and procedures and internal control over financial reporting, as defined in NI 52-109.

## **MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS**

Information provided in this report, including the financial statements, is the responsibility of management. In the preparation of these statements, estimates are sometimes necessary to make a determination of future values for certain assets or liabilities. Management believes such estimates have been based on careful judgments and have been properly reflected in the accompanying financial statements. Management maintains a system of internal controls to provide reasonable assurances that the Company's assets are safeguarded and to facilitate the preparation of relevant and timely information.
