## **NEWS RELEASE**

November 13, 2025

### **DRILLING STARTS AT THE NIGHTHAWK GOLD/SILVER PROJECT, NEVADA**

Bitterroot Resources Ltd.'s (**symbol BTT, TSX-Venture Exchange**) drilling contractor has initiated a 10-hole, 3,000-4,000 metre reverse circulation drilling program at the Company's 100%-owned Nighthawk Gold/Silver Project in the Walker Lane Belt of west-central Nevada.

Drilling will target untested Miocene-age structures and potential intrusions which are covered by a thin layer of alluvium and colluvium. The drill targets have been developed through a multi-year exploration effort which began with regional exploration, followed by examination of nearby outcrop, a detailed aeromagnetic survey, prospecting, and soil geochemical surveys. Nighthawk hosts gold/silver-mineralized boulders with grades ranging from 0.83 to 38 grams gold/tonne that are associated with anomalous soil geochemistry. Drilling will test for structurally-controlled, near-surface oxidized epithermal gold/silver mineralization and intrusion-hosted base and precious metals mineralization. The Nighthawk Project is several kilometres immediately west of, and contiguous with, third party claims covering the past-producing open pit/heap-leach Boss Mine and the undeveloped, near-surface Castle, Berg and Black Rock gold deposits. The Nighthawk claims are located on Federally-managed (BLM) land in Esmeralda County, approximately 50 kilometres west of Tonopah, NV.

Drilling at Nighthawk is expected to continue until late December 2025, with results expected as early as the latter part of the first quarter of 2026. Additional information on the Nighthawk Gold/Silver Project is available on the Company's website [www.bitterrootresources.com](http://www.bitterrootresources.com).

Mr. Charles Greig, M.Sc, P.Geo, is the Qualified Person responsible for the technical content of this news release.

**About Bitterroot Resources Ltd.:** Through its US subsidiary Trans Superior Resources, Inc., Bitterroot owns a 100%, royalty-free interest in the 219-claim Nighthawk Gold/Silver Project near Tonopah, NV. Trans Superior also owns a 51% interest in the LM Nickel/Copper Project in the highly prospective Baraga Basin in Michigan's Upper Peninsula. The Baraga Basin hosts the USA's only operating nickel/copper mine, Lundin Mining's Eagle Mine, plus the Boulderdash and Roland prospects, which are being aggressively explored by Talon Metals Corp. LM and Roland are likely parts of the same mineralized conduit system. More drilling is planned at LM, subject to financing. Bitterroot also owns 5.9% of Perseverance Metals Inc., a Quebec and Michigan-focussed nickel/copper exploration company. Perseverance's management plan to drill several new magmatic nickel/copper targets in the Upper Peninsula in early 2026.

ON BEHALF OF THE BOARD OF DIRECTORS,

*Michael S. Carr*  
Director and CEO

**FORWARD LOOKING STATEMENTS:** Certain statements contained in this press release may constitute forward-looking statements under Canadian securities legislation. Generally, forward-looking information can be identified by the use of forward-looking terminology such as "expects" or "it is expected", or variations of such words and phrases or statements that certain actions, events or results "will" occur. This document contains statements about expected or anticipated future events and/or financial results that are forward-looking in nature and as a result, are subject to certain risks and uncertainties, such as general economic, market and business conditions, regulatory processes and actions, technical issues, new legislation, competitive conditions, the uncertainties resulting from potential delays or changes in plans, the occurrence of unexpected events and the company's ability to execute and implement its future plans. Actual events may differ materially from those projected in the forward-looking statements. When relying on forward-looking statements to make decisions, investors and others should carefully consider the foregoing factors and other uncertainties and should not place undue reliance on such forward-looking statements. The Company does not undertake to update any forward-looking statements, except as may be required by applicable securities laws. For such forward-looking statements, we claim the safe harbour for forward-looking statements within the meaning of the Private Securities Legislation Reform Act of 1995.
